

Improved Accessibility in Glentana

Our client in Glentana needed a practical solution to access two adjacent rooms without going through one to reach the other. We proposed relocating a door and installing a new one, creating a more functional layout.

- Custom-made solid Maranti doors and frames
- Minimal disruption and dust control measures
- Finished with Maranti skirting and a fresh coat of paint
- Electrical adjustments and wood oiling completed the seamless transformation

The result? A beautifully integrated solution that enhanced the home's flow and aesthetic.
